Title/ Titre:	SITUATION IN PORTUGAL REPORT OF FNAM FOR MEETING TO FEMS WARSAW - October/2008		
Author/Auteur:	FNAM		

Remains and intensifies the interests of large corporations by the Health sector, already reported at the meeting in Prague.

At the same time, we are witnessing the transformation of public hospitals into publicly-owned companies, removing, at one hand, its funding from the General State Budget, and secondly, introducing rules for managing that precarious employment of its professionals.

The reform of Primary Care, is a bar to wait.

Under the reform of public administration in progress, the review of careers should already be completed at the end of last August, but until now the Ministry of Health did not disclose any proposal and it only produced some very general "guidelines", that received a clear repudiation of both unions.

In short, we remain very worry with the current situation of doctors and Health in Portugal.
