<b>Title/ Titre:</b>	<b>WG Professional Qualification</b>		
<b>Author/Auteur:</b>	<b>Bojan Popovic</b>		

# WG Professional qualifications

# WG goals

- to make an inquiry on the implementation process in individual EU countries
- to obtain the draft implementation solutions to exchange the implementation ideas
- to answer the question whether FEMS associations could be contact points
- in sense of Art. 57 of the Directive

## WG goals (2)

- to reach a common position on the language knowledge level according to the Art. 53 of the Directive
- to find the possible practical solutions on the use of academic titles in sense of Art. 54 of the Directive
- to reassess the aspects in which the Directive in its present form does not meet the interests or goals of FEMS' members

# IMI questionnaire (FEMS opinion)

- **In our opinion, the questions in the draft IMI questionnaire basically cover all the issues concerned in the Professional Qualifications Recognition Directive. However, since not all the questions are applicable to all professions, we believe that the sequence of questions in the questionnaire should be rearranged and divided according to the titles and chapters of the Directive in order to be more transparent and more user-friendly. For certified physicians, for instance, only about a half of questions are relevant.**
