Activities with WHO/Europe

WHO EUROPEAN HEALTHY CITIES NETWORK

- European Healthy Cities Network Healthy Aging Taskforce

Activities - Medical Scientific Societies

- Initiating Collaborations with European Medical Scientific Societies:

Collaboration with the Association of Medical Schools in Europe (AMSE)

Memorandum of Understanding

between

the

Association of Medical Schools in Europe (AMSE)

and

the

European Medical Students' Association (EMSA)

- AMSE invited EMSA to partner up, and to have an *ex officio* member from EMSA join its Executive Committee, to facilitate collaboration.
- Future long-term initiatives are intended:
 - minimum harmonization of undergraduate medical training (which conditions should all graduates know how to manage upon graduating)
 - Entrustable Professional Activities for Undergraduate Medical Students to Bridge the Training Gap of Doctors Entering Residency

Collaboration with the Association of Medical Schools in Europe (AMSE)

Educating for patient-centred and community-engaged healthcare

Inspire – Engage – Foster Transformation
17 – 19 October 2024

Memorandum of Understanding

between

the

Association of Medical Schools in Europe (AMSE)

and

the

European Medical Students' Association (EMSA)

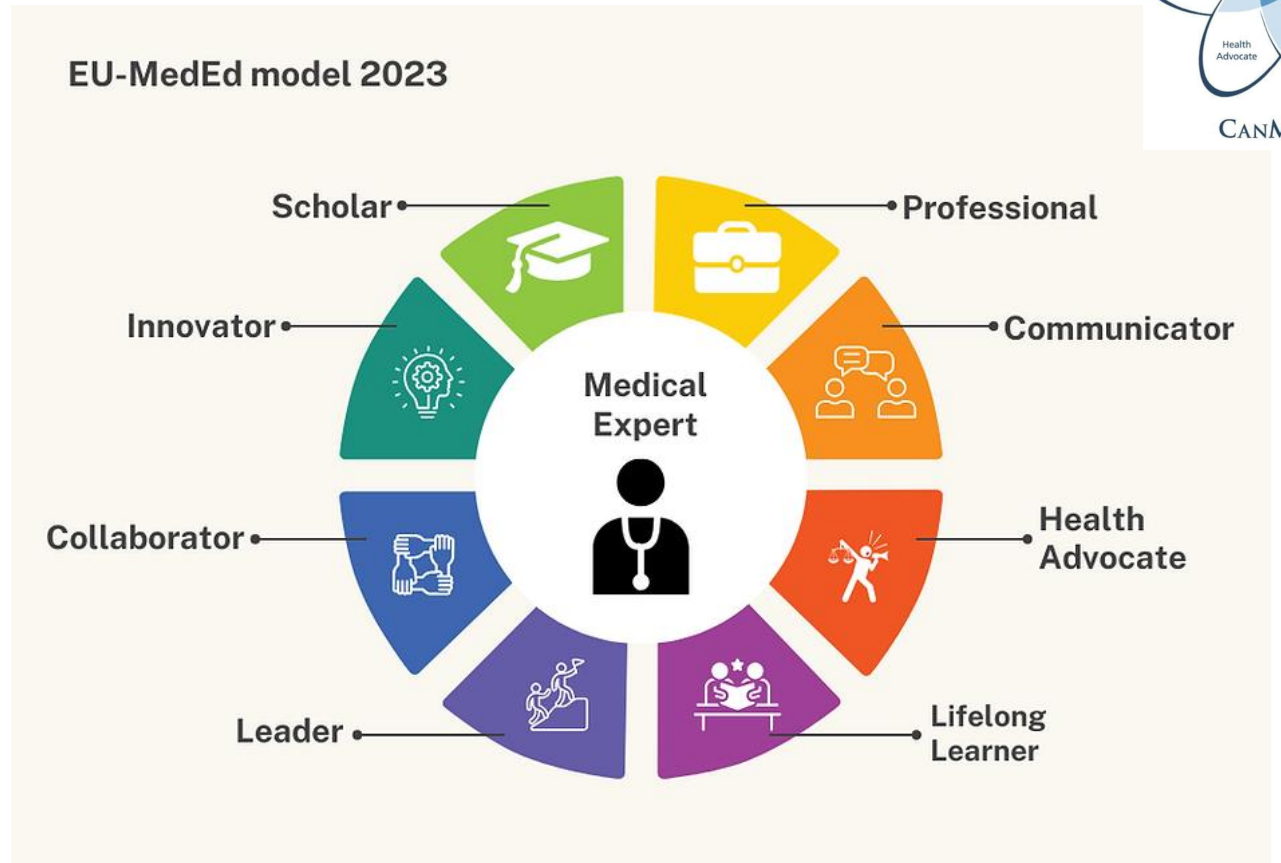

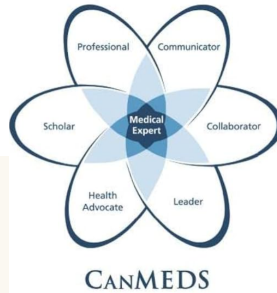

in the beautiful city of Thessaloniki, Greece, hosted by the [School of Medicine, Aristotle University of Thessaloniki](#).

THESSALONIKI 2024

CALOHEX - European Qualifications Reference Framework for Medicine

Measuring and Comparing Achievements of Learning Outcomes in Higher Education Extension (CALOHEX)

CALOHEX - European Qualifications Reference Framework for Medicine

Medical Expert

Knowledge

Demonstrate a depth and breadth of understanding of biomedical and clinical sciences, and other domains which are relevant to health.

Skills

Demonstrate the ability to perform patient-centered clinical assessment, make an informed shared decision to establish a management plan, and deliver supportive and empathetic care.

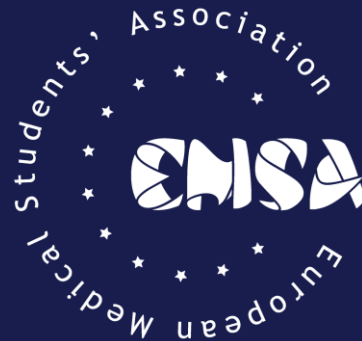

Autonomy and Responsibility

Act on the basis of professional values to provide evidence-informed, effective, efficient and safe patient- or community-oriented care.

...
